Press release

GSK Stockmann advises thyssenkrupp subsidiary pacemaker on the acquisition of WAVES in the field of sustainability management

GSK Stockmann advised pacemaker.ai, a software company belonging to thyssenkrupp, on the acquisition of the Luxembourg based company WAVES, a leading provider of sustainability management platforms; the acquisition is an important step in expanding the sustainability product range of pacemaker.ai.

pacemaker.ai is a pioneer in the field of sustainable, AI-supported supply chain solutions. Founded as a corporate venture of thyssenkrupp, pacemaker.ai offers modern and customized software solutions for optimizing global supply chains – from industry to industry. The solutions, which can be individually configured to customer needs, focus on demand forecasting and carbon intelligence and use a combination of raw data, industry knowledge and machine learning to provide customers from a wide range of industries with highly accurate forecasts and balances.

WAVES provides an award-winning Sustainability Management Platform (SMP) that helps companies calculate and manage their environmental, social and governance (ESG) indicators along the entire supply chain and fulfill their sustainability reporting obligations.

The GSK Stockmann team from Luxembourg, co-led by Anna Lindner and Anna Gassner, was in charge of drafting and negotiating the sale and purchase agreement.
